Quotable quotes: "While nothing will ever equate to my first..., this trip was just as memorable and worthwhile in its own ways.....It was good to work with a new group, to see their enthusiasm and desire to learn and to see them begin to realize their potential.I also hope to see them take their skills and apply them,....obtaining a job....or creating a business opportunity.....In conjunction with ...both training...and potential for employment, I envision ...IHDN computer center becoming a resource that people can use in their business efforts...There is still much to be done....My final thought is one of gratitude to God for the team HE put together this year..."

Tim's vision for the future: "...enhance the lab and the clinic, and better utilize resources by establishing a local area network.."
